Dear

While there is no requirement that you provide a Taxpayer Identification Number for becoming a Distributor with our Company, the nature of our marketing plan requires us to withhold and pay over to the Internal Revenue Service 31% of all funds paid to our Directors or Distributors who fail to provide us with a valid Taxpayer Identification Number. This includes Purchase Volume Discount on downline, Commissions paid on Directors in ones downline and vehicle expense reimbursement plans. Under NO CIRCUMSTANCES will we make full payments to a Distributor without a valid Taxpayer Identification Number!

While our attorney councils us that we need not accept your application, it is our policy not to deny anyone the opportunity of purchasing dietary supplements from our Company. It may however be in your best interest to purchase our product from a Distributor and thus avoid the hassle of possible future withholding on payments to you.

Should you decide not to become a Distributor, we will gladly refund your \$35.00 Distributor Application fee.

Yours truly,

Gisela G. Watkins  
Vice President

If you decide to resubmit your application without a Social Security Number or Tax Identification Number, please return a copy of this letter with your signature indicating you have read and understood the above.
